**Универсальный - более универсальный -  
профильная форма**

Корпус профильной формы - универсальный системный блок из цветных и прозрачных пластмассовых профилей и несущих модулей. Превосходная комбинация произвольно устанавливаемых в ряд модулей со стандартным шагом и отрезаемых точно в размер изделий, отмеряемых метрами, создает оптимальный баланс между универсальностью и экономичностью.

- Защелкивающиеся профили со стандартной шириной в диапазоне 5-45 мм обеспечивают поддержку всех распространенных форматов плат.
- Изменяемая монтажная высота гарантирует максимальную плотность монтажа даже при использовании крупных электронных узлов.
- Различные варианты монтажа делают непосредственный монтаж корпусов таким же простым, как фиксация на монтажной рейке
- Прочные крышки надежно защищают узлы от внешних воздействий

Формула успеха: изменяемый профиль + модульные профильные детали = гибкая концепция корпуса с большой полезной площадью для печатной платы. Модульная концепция оптимально подходит для узлов с большой занимаемой площадью и особенно оправдывает себя при малом количестве единиц оборудования или изменяемой монтажной ширине.

**Общие данные заказа**

| Тип                  | RF 180 OR                                                     |
|----------------------|---------------------------------------------------------------|
| Номер для заказа     | <a href="#">1324460000</a>                                    |
| Исполнение           | Корпуса для электроники оранжевый, Фиксатор, Ширина: 17,55 mm |
| GTIN (EAN)           | 4008190159870                                                 |
| Норма упаковки (VPE) | 20 штук                                                       |
